Re: **PUBLIC NOTICE OF REQUEST FOR MODIFICATION OF PERMIT**

Hydrocarbon Recyclers, Incorporated of Wichita (HRIW), has requested of the U.S Environmental Protection Agency (EPA) Region VII a Class 2 modification of their Resource Conservation and Recovery Act (RCRA) / Hazardous and Solid Wastes Amendment (HSWA) hazardous waste permit, to store and/or treat in containers and tanks from on-site and off-site sources those new wastes listed by the EPA in the Final Rule published in the Federal Register on February 9, 1995, at Volume 60, Number 27, pages 7824 ff. Six of these newly listed wastes are generated during the production of carbamate chemicals. The remaining 58 are specific chemicals related to the carbamate chemical group.

HRIW is located at 2549 N. New York Street in Wichita, Sedgwick County, Kansas. They were granted their RCRA/HSWA hazardous waste permit by the Kansas Department of Health and Environment (KDHE) and EPA on April 7, 1995, and have been assigned EPA identification number KSD007246846. On May 12, 1995, HRIW received Interim Status approval to manage these newly identified wastes under a Class 1 permit modification filed under 40 CFR 270.42(g). This Class 2 modification request completes that process, as required by 40 CFR 270.42(g)(iv).

Anyone wishing to comment on this request for permit modification should submit written comments postmarked no later than April 9, 1996 to Wes Bartley, Division of Air/RCRA/Toxics, U.S. EPA Region VII, 726 Minnesota Avenue, Kansas City, KS 66101, Telephone 913-551-7632.
